PROJECTS

CineSnap — Full-Stack Movie Ticket Booking Platform | *ReactJS, Vite, Node.js, Express.js, MongoDB, Clerk, Stripe, Razorpay*

- Built a MERN-style movie booking platform with movie discovery, detail pages, showtime selection, interactive seat booking, favorites, reviews, and booking history.
- Designed REST APIs for movies, shows, bookings, reviews, payments, users, QR-based e-tickets, and admin workflows with MongoDB/Mongoose data models.
- Integrated Clerk authentication, Stripe and Razorpay checkout, and automated email confirmations, while keeping frontend and backend deployable as independent services.
- GitHub:** github.com/GungunW-0903/CineSnap | **Deployed:** gungunw-0903.github.io/CineSnap

Velocity — AI-Powered Career Growth Platform | *JavaScript, React, Firebase*

[GitHub](#)

- Led frontend development in a 4-member team at GDSC Techsprint, delivering AI-assisted resume enhancement, mock interviews, and skill-based job matching.
- Implemented a Fellowship & Challenges module where companies publish real-world tasks and assess candidates through practical performance.
- Achievement: Helped the team secure a **Top 10** rank in a competitive national-level online hackathon.

SafeExit | *Next.js, React, Node.js, Express.js, MongoDB, JWT, Tailwind CSS, QR Code*

[GitHub](#)

- Developed a full-stack hostel outing and complaint management system with role-based dashboards for students, wardens, and security guards.
- Implemented secure authentication and authorization using JWT, bcrypt password hashing, and role-based access control.
- Built an outing request workflow where students submit requests, wardens approve or reject them, and approved requests generate unique QR codes.
- Integrated QR code scanning for security guards to verify students and update exit/return status in real time.
- Designed a complaint management module allowing students to raise hostel-related issues directly from their dashboard.
- Used MongoDB and Mongoose to manage users, outing requests, complaints, and status updates efficiently.

CERTIFICATIONS AND CODING
